Goals

This program is designed for practicing surgeons. It is meant to provide an update in the various disciplines of surgery with application to daily practice and to enhance the knowledge of the participants in these areas.

At the conclusion of this educational program, participants will be able to:

- Coordinate with local and national organizations of surgeons to guide the future of the field;
- Perform multiple sonographic interrogations on a multitude of common surgical diseases;
- Utilize multiple mobile applications to increase efficiency in practice;
- Incorporate practices and procedures into the care of patients that reduce the chance of malpractice liability;
- Use the SCORE curriculum to provide residents a more nationally universal program of study;
- Practice quick surgical decision making and develop plan for treatment;
- Identify new surgical techniques occurring in Pennsylvania;
- Assess new patient safety mechanisms.
